

East Carolina University

Clinical Assistant Professor

Vacancy #: 964109

Salary Range: Commensurate with Qualifications

Closing Date: Open Until Filled

Organizational Unit Overview

It is the mission of the Department of Pediatrics, East Carolina University, Brody School of Medicine, to provide exemplary medical education/training of physicians in pediatric medicine at the undergraduate and graduate levels. Additionally, it is the mission of the department to provide model comprehensive primary and consultative subspecialty care to children of eastern North Carolina, to advance scientific knowledge through basic and clinical research, and to provide continuing medical education opportunities for physicians in the region.

Job Duties

The Division of Pediatric Cardiology at the Brody School of Medicine, East Carolina University in Greenville, North Carolina, is recruiting a BE/BC pediatric cardiologist with expertise in inpatient and outpatient pediatric cardiac care. Responsibilities include, but are not limited to, outpatient clinic, outreach clinic, inpatient management and consultations.

The physician will join a 5-person division providing care to a population of 1.3 million people in 29 counties in eastern North Carolina. The division provides inpatient, outpatient, outreach clinic, electrophysiologic, interventional catheterization, and limited surgical support for the pediatric and adult congenital cardiac patient. Outpatient pediatric/adult congenital cardiac services are provided at East Carolina Heart Institute at East Carolina University as well as at 9 outreach clinic sites. Inpatient pediatric/adult congenital cardiac services are provided at the 142 bed Children's Hospital of Eastern North Carolina as well as at the 120 bed East Carolina Heart Institute at Vidant Medical Center.

Fixed Term or Tenure Track Position available at the title/rank of Assistant Professor or higher.

Minimum Education/Experience

MD degree from an appropriately accredited institution and Board Eligible/Board Certified in Pediatric Cardiology.

License or Certification Required by Statute or Regulation

Must be Board Certified or Board Eligible in Pediatric Cardiology

Preferred Experience, Skills, Training/Education

Interest or experience in fetal echocardiography, transesophageal echocardiography, nuclear cardiology and magnetic resonance imaging of congenital cardiac patients, and /or electrophysiology is desired.

Proficiency in transthoracic echocardiography of the pediatric and adult congenital cardiac patient is preferred.
