

Pediatric Cardiologist - Outpatient Care

The Cincinnati Children's Heart Institute is recruiting a full-time, board certified General Pediatric Cardiologist to join our Greater Louisville and Western Kentucky Practice and support our expanding network of outpatient fetal, pediatric, and adult congenital cardiology locations in Greater Louisville, Western Kentucky and Southern Indiana.

About the Position

- Join 5 fetal, pediatric, and adult congenital cardiologists providing outpatient care.
- Interpret all non-EP office testing including ECHO and FETAL ECHO.
- Interpret telehealth studies (ECG, Holter, ECHO).
- All faculty participate in weekly clinical management and educational conferences.
- Ideal candidate will have additional training in non-invasive imaging including fetal echo and at least 2 years of post-fellowship clinical experience.
- Opportunity for translational research support
- Opportunity for academic appointment In the Department of Pediatrics and at the University of Cincinnati.
- Competitive salary commensurate with training and experience.

About the Cincinnati Children's Heart Institute

The Cincinnati Children's Heart Institute is one of the largest pediatric and congenital cardiology programs in the nation with more than 135 world-renowned physicians, researchers and fellows. This currently includes eight cardiothoracic surgery faculty, over 60 pediatric cardiologists and 10 basic science research faculty, in addition to several jointly appointed faculty, as well as adjunct and staff positions. In FY22 the Heart Institute saw over 27,000 outpatient visits across 26 sites, including 19 outreach locations and seven neighborhood locations. Our team of internationally renowned surgeons perform an average of 600 cardiothoracic surgeries across our programs each year and work hand-in-hand with the medical team to achieve one of the highest surgical survival rates in the country. Novel ventures, such as the Fontan Clinic, Cardiac Rehab Program and Cardio-Oncology Program, provide condition-specific expertise with an eye toward the future of precision cardiac care. In addition, Cardiology researchers published over 400 papers in FY22 and generated more than \$14M in external research revenue.

Over the last five years, the Heart Institute has experienced tremendous strategic growth. Collaborations with regional health systems, including the Joint Pediatric and Congenital Heart Program with the University of Kentucky, are a key driver of the expansion of clinical care. Launched in 2017, the Joint Pediatric and Congenital Heart Program has completed over 2,300 surgical and interventional procedures specific to the University of Kentucky market, with higher acuity cases being performed at Cincinnati Children's. Joint patient care and teaching conferences for pediatric cardiology and adult congenital patients are presented several times weekly, allowing for collaboration between sites.

Cincinnati Children's offers an excellent benefits package, including health, dental, generous PTO allowance, 10% retirement contribution of wages (up to the annual compensation limited imposed by the IRS) and relocation assistance.

Cincinnati Children's is a nonprofit academic medical center that stands as one of the oldest and most distinguished pediatric hospitals in the United States. Established in 1883, Cincinnati Children's has two full-

service hospitals (Burnet and Liberty campuses) as well as outpatient clinics, services and therapies at many locations throughout the Cincinnati Tri-State area. Cincinnati Children's serves patients from all 50 U.S. states and 29 other countries and is an internationally recognized leader in improving child health and transforming delivery of care through research, education and innovation. With more 17,000 employees, faculty, residents and fellows, the medical center is consistently ranked as one of the best children's hospitals in the nation, and this past year, it earned the number three spot in the prestigious *U.S. News & World Report's* 2022-2023 Honor Roll.
